Empire Mining and Metallurgical Congress to Visit Coleman and Blairmore on Friday, Sept. 9th

Committee of Mining Institute Members Will Entertain Distinguished Gathering of Mining Men From All Parts of British Empire

Coleman and Blairmore will be hosts to a very important gathering of members of the Second Triennial Empire Mining and Metallurgical Congress on Friday, Sept. 9, when a special train conveying the visitors across the Dominion will arrive at Blairmore at 2:35 p.m., and during the afternoon and evening the visitors will be driven to the various mines in this district of the Crow's Nest Pass, the day concluding with a banquet in the evening at Blairmore, which is being arranged by the institute members and a special committee from Coleman and Blairmore.

During the time the party is being entertained at these two places, another special train carrying another group of members will be spending the afternoon in Fernie, where the party will be entertained by the Crow's Nest Pass Coal Company.

The Blue Special, on which the party will arrive at Blairmore, will leave Lethbridge at 11 a.m. on Friday, Sept. 9, arriving at Blairmore at 2:35 p.m. The official program states that members who are interested in the washing of

coal will be taken through the following pneumatic coal cleaning plants: The West Canadian Collieries dry cleaning plant at Blairmore and the dry cleaning plants of the International Coal and Coke Co. Ltd. and the McMillivray Coal and Coke Co. Ltd. at Coleman. Those who do not desire to inspect the coal cleaning plants will be conveyed by motor to the great rock slide at Frank, the tragic history of which is well known to people throughout the Pass.

The special will leave Blairmore at 11:15 p.m., for Kimberley B.C., where it will be joined by the Red Special which will journey on from Fernie.

In connection with the visit of the Congress, it is expected that heavy co-operation will be given the committee in making arrangements to entertain the visitors. It is worthy of note that Canada has been chosen for the meeting place for the second Empire Congress, and this district as well as the other districts visited will doubtless receive much valuable publicity as a result.

Stray Horses a Nuisance

Stray horses roaming around in the townsite are a nuisance and a source of danger. The other evening an automobile narrowly escaped colliding with one, and it is hard to say which one would have fared the worst. One horse with a long chain attached is a particular offender, or rather the owner is the worst offender for allowing it to roam around in such a manner. Chief Houghton says he has given sufficient warning to the parties responsible, and the next excuse will have to be told to the magistrate.

Coleman Oddfellows Held Very Enjoyable Picnic

Stiff Limbs and Sore Joints Are Effects of Unusual Exercise By Older Members

The annual picnic of the Coleman Lodge I. O. O. F. was held on Sunday and quite a large number of members and their families and visitors availed themselves of the opportunity to enjoy the day at Crow's Nest Lake. The weather was ideal and all were unanimous in voting the day as being a splendid success. There were some among the older folks hobbling around next day with stiff joints, having tried their skill at playing baseball.

Theatre News

A very good program was given at the Palace theatre on Saturday evening, the main feature being the picture entitled "The Fire Brigade." The Fox film of current news and the comedy were very good, the latter especially keeping the house in a continual roar of laughter.

See the Dempsey-Sharkey fight picture at the Palace theatre, Coleman, on August 29. Exclusive rights for this picture in the Crow's Nest Pass are held by the Palace, Coleman and the Orpheum, Blairmore.

All next week will be "Western Week" at the Palace Theatre, starting Tom Mix, Hoot Gibson, Harry Carey and William S. Hart. 52-1c

Commercial Flying Starts in Alberta

The first passenger trip of the Lethbridge Commercial Airways was made on August 7 between High River and Lethbridge by a plane piloted by Jack Palmer. It is announced that commercial flights will be arranged between Lethbridge and Waterton Lakes.

Announcement

During the absence of Dr. D. A. McLeod, dentist, on his vacation, his office in the Oimette block will be closed from Sept. 1 to 21. 53-4

Important Announcement

The Pythian Sisters anniversary on Aug. 20 will be observed in the K. of P. Hall by a party male and female in the afternoon at 3 p.m., and whilst drive and dance in the evening commencing at 7.30. 51-2c

Packing up their troubles and golf sticks in the old kit bag four of the star golfers of Coleman departed hence on Tuesday afternoon to enjoy the attractions of beautiful Waterton Park. And to try their skill on the golf course there. In the party were Geo. Kelloch, Ross Powell, Jack McLeod, and Capt. Barnes in charge of the commissariat.

Coleman Elks Busy Preparing for Carnival

Every Member of Committee Enthusiastic in Effort to Surpass Previous Records

Mr. W. L. Rippon, the genial secretary of the Carnival committee, is on a trip to Calgary for the purpose of selecting novelties for the carnival and bazaar.

When the carnival rides in the Arena rink on Sept. 3-5-6, a glorious surprise will be awaiting the visitors. The gifts which will be showered down upon the guests will be displayed and may be purchased for a nominal charge.

The Elks Bandwell Orchestra will give a special program of dance music which will be a feature of the carnival, and will include all the latest song and dance hits from New York and London. The new Charleston as approved by the Prince of Wales will be played each night as well as many other selections. The entire net proceeds of the carnival will be used for local community purposes.

Community Boosters Deserving of Support

They Expend Time and Effort to Speed the Wheels of Progress in the Community

Did you ever analyze the development of any town or community? Did you ever pause and consider who were the most active and energetic in the promotion of the various undertakings which may have meant so much to the community? Did you wonder, at times, why one town seemed to grow and develop while another, just as advantageously situated, did not?

There are in practically every town a certain number of active and wide-awake business and professional men. They are ready and willing to devote a considerable amount of time and effort in the promotion of undertakings for the betterment of the community. If these men are supported and encouraged by the community at large—if there is that spirit of good will and co-operation which should prevail—then, and then only, will you see a prosperous and progressive community. If men in similar lines of business will harmonize, and if these, then, will co-operate with all others, then nothing can hold such a town back beyond its natural limitations. In the promotion of these matters the local paper can and does take an active part; and only in the measure of business co-operation which is extended to such paper may it be a power and influence to the community.—The Hanna Herald.

Local Knights of Pythias Visited Hillcrest Brethren

Sentinel Lodge was well represented at a meeting of the Hillcrest Lodge, K. of P., on Tuesday evening, when a candidate from Fernie was initiated. Grand Chancellor W. Bannon was present, and Sentinel Lodge put on the degree work.

The members of Sentinel Lodge K. of P. held their annual picnic at Crow's Nest Lake on Sunday, and one of the features of the afternoon was a baseball game between the fate and the thins. The result is still in dispute, but all have one grievance in common, and that is they are feeling sore yet from the unaccustomed exercise.

Masonic Social To-Night

All Masons and members of the Order of the Eastern Star and their families are invited to a social evening and dance to be held in the Masonic Hall this evening, (Thursday) at 9 p.m. The social is in compliment to three officers of the lodge who are leaving Coleman, being W. E. G. Hall, I. P. M.; H. W. Clark, S. D., and Rose Powell, Chaplain.

Coleman Footballers Win

The Coleman pikin chasers went to Hillcrest on Saturday to play a return game with the boys there, who a couple of weeks ago defeated Coleman on the latter's home ground. Coleman exacted their sweet revenge by notching four goals, completely whitewashing their opponents. The scorers were: A. Izatt, Pryde, Dunlop and T. Izatt.

Visiting Old Friends

A very popular former resident of Coleman is visiting here this week in the person of John S. Mitchell, from Spokane. He was secretary of the Miners Union here, and was also an officer in the 192nd Battalion. Going to Spokane about seven years ago he foretook the mining industry and is now with the Spokane & Eastern Trust Co.

Personal and Local

J. Poole, of the McBurney Drug store, is away on vacation for three weeks.

The Rod and Gun club go to North Fork next Sunday, leaving the town hall sharp at 8 a.m.

Mr. and Mrs. Geo. R. Neil left on Sunday morning for an auto tour to Calgary and Banff.

Mr. and Mrs. J. F. Lott spent a very delightful auto trip last week, visiting Calgary and Banff, returning via the Windermere trail to Cranbrook and Coleman.

Be sure and attend the dance in aid of the swimming pool, at the Opera house on Wednesday evening next. Admission for gent is one dollar and ladies 25c.

Rufus Neil was seriously injured in the International mine on Monday by a fall of coal at his working place. In addition to other injuries he received a fractured left shoulder, and was conveyed to the Mines hospital.

Mr. and Mrs. H. M. Dufos left Sunday morning to spend three weeks holidays at Chilliwack, B. C. Mr. Gordon, of the Carmang branch Bank of Commerce, is relieving here during Mr. Dufos's absence.

J. C. Wainwright, Grand Keeper of Records and Seals, K. of P., was here last week interviewing local officials and making arrangements for a district meeting in the Pass later in the year.

Fred Antouche cast aside all the cares of worldly business last Friday, and in company with H. Snowden and W. Lees, hied away to the North Fork to catch the wary and elusive trout.

Miss Dorothy Graham entertained a number of friends on Friday evening at a surprise party in honor of her brother George's birthday. The decorative scheme and place cards were of an orange color, and also were the lights which shed their soft glow over the room. A very dainty and tasty luncheon was served and the program for the evening included various games and dancing.

Southern Vets Meet Princes At High River

At Request of Prince of Wales Veterans Gather at Station

On Sunday morning, August 14, at 10:30, H. R. H. the Prince of Wales, accompanied by his brother, Prince George, met the war veterans of the High River district unofficially on the C. P. R. platform at High River. Ninety ex-service men from Claresholm, Nanton, Vulcan, Okotoks, Cayley and Blackie, and four nursing sisters—Messdames M. Kolner, Price Evans, A. W. Whillard and Knalson—were on parade.

Many of these veterans bore on their bodies permanent testimony of their war experiences. With all of them, the Prince, escorted by Major Scott, of High River, shook hands, pausing to ask their occupations, their place of residence, or to give a word of sympathy.

Prince George, too, the boyish, stalwart younger brother, passed through the ranks, shaking hands here and there. This meeting was purely unofficial. On Saturday morning, August 13, the local veterans received notification from General Trotter that the Prince would arrive at High River by train at 10 a.m., Sunday, for the purpose of meeting the war veterans of the district.

At the conclusion of the ceremony three cheers for Their Royal Highnesses were given by the veterans, led by Private T. Lagon, in which the crowd heartily joined. The Prince and party left immediately for the ranch with Professor Carlyle. One rather charming incident, so characteristic of him, was the unconscious solicitude with which the Prince watched the weaving of his car through the masses of children blocking his path. He leaned far out of the window to see that these enthusiastic admirers were in safety.

While their was no official ceremony, Mayor Young, Senator Riley, and other prominent citizens were on the station platform to add their greetings.

The United Church

Arrangements are being made to hold the Sunday School picnic on Wednesday afternoon, Aug. 24. The picnic will again be held at the lake. Detailed announcements will be made on Sunday at the Sunday School and at the services. Transportation will be the main task and cars are asked for. It is intended that the picnic be as much as possible a congregational affair.

Rev. D. K. Allan, who is visiting in town, will take the evening service on Sunday next. This will no doubt be a real occasion to the congregation, who will want to hear Mr. Allan again. Will all concerned help to make this service a success?

Rev. H. J. Bevan is planning to attend the Alberta School of Religion which is being held in Mount Royal College, Calgary, Aug. 22 to Sept. 3. The school is now in its fourth year and is a very vigorous affair. Dr. Harold Lynn Hough of Detroit, Mich., is the chief attraction this year. In addition lecturers from the staff of the University and the theological colleges comprise the faculty.

Many Arguments in Close Baseball Game

Umpire's Skin Not Thick Enough To Withstand the Assaults of Contestants

Heated arguments with the umpire which caused him to give up his position in disgust featured Sunday's baseball game with Michel on the local diamond, when Coleman defeated the visitors by the score of 11-8. Michel's battery were Cassler and Sallish, Zeith catcher; Coleman's battery, Palecek pitcher, Gate catcher.

There were many errors in the game, and it lasted much longer than usual owing to so many delays and arguments. Mills and Lund were the umpires, with Mills on base.

Dance Next Wednesday

The third fortnightly dance in aid of the swimming pool fund will be held in the Opera house on Wednesday, Aug. 24. Mrs. Altmatt's orchestra will furnish the music, and a cordial invitation is extended to the general public to attend. These dances have proved very enjoyable and have received a generous measure of support, the proceeds being used to defray the operating expenses of the swimming pool.

Mrs. C. S. Oimette and son Billy returned on Friday night from Nelson, B. C.

The Rev. D. K. Allan and four children, former United church minister here, now living at Westlock, Alta., is here visiting old friends for a few days.

Born at McDougall hospital, Kimberley, B. C. on July 22, to Mr. and Mrs. Wm. N. Donaldson, a son.

Loyal Order of Moose Picnic

The first annual picnic of Coleman Lodge will be held on Sunday, Aug. 21. Care and trucks will leave the Moose hall at 10 a.m. prompt for the picnic ground on the north side of the railroad track at Sentinel station. This being the strongest lodge for membership in the Pass, a big turnout is expected. Owing to the fact that the mines are working half time it was decided to hold the picnic on the Sabbath. Transportation for members will be free, and refreshments will be provided, though members are requested to bring their own lunches.

Tennis Championship

The championship of the Crow's Nest Pass Tennis Association will be decided at Fernie next Sunday, the competing teams being Cranbrook and Coleman. Coleman will be represented by L. Lindoe, R. F. Barnes, R. G. Powell and another member not yet named.

Will Establish Commercial Fish Hatchery

Construction of the first commercial fish hatchery in Alberta will be started in September, announces R. T. Rodd, Dominion fisheries inspector. This will be located at the mouth of Canyon Creek, two miles west of Waterton on the E. D. and B. C. railway, on the south shore of Lesser Slave Lake. It is estimated that 100,000,000 whitefish will be propagated at the hatchery every year to maintain an undiminished supply of fish for the many companies operating in the lake.

Staff-Captain Merritt, divisional commander, Southern Alberta, will visit the local corps of the Salvation Army on Sept. 28, when he will hold special meetings. He is a musical wizard, states Capt. Hind, and an adept on the concertina.

POLITICAL UPSET NOW PREDICTED IN FREE STATE

Dublin.—The recent assassination of Kevin O'Higgins, vice-president of the Free State Council, and the measures which President Cosgrave's Government adopted in the face of that murder, have had surprising and unforeseen consequences which observers say threaten to upset the Cosgrave Government and completely revolutionize the political situation in the Irish Free State.

Among the Government's measures was one to compel all candidates at elections to take the oath of allegiance to the British Crown before going to the polls. This measure was expected to split the Flanna Fail, the Republican party headed by Eamon de Valera, whose members had steadfastly refused to take any such oath. Instead, this Government now would expect Flanna Fail later a determination to subscribe to the oath.

This decision resulted in 15 Republican deputies, including de Valera himself, taking the oath and announcing their seats in the Dail for the first time. The Republicans previously had let it be known that the taking of the oath was an empty formality, so far as they were concerned, as they made it with the mental reservation that they subscribed allegiance only to the Irish nation.

The advent of the Republican deputies into the Dail gives the opposition parties just enough votes to upset the Government. It is stated that the three opposition parties—the Republicans, headed by de Valera, the National League, headed by Captain William O'Donnell, and the Laborists, who are led by Tom Johnson—have agreed to work together and that a future policy is being arranged between them. It has been said, however, that it was not expected any Republican party would take office if a new Government was formed.

Epidemic in England Is Causing Anxiety

Cause Of Illness Among Children Cannot Be Determined

Bath, Eng.—An epidemic that is supposed to have originated here, from the consumption of tainted ice cream, has affected more than 200 people, in Bath, Somerset, and the surrounding district. There is a great deal of anxiety over the outbreak, more particularly as a number of people who have not eaten the supposed infected ice cream, are ill from some mysterious cause.

One child has died from complications of these who are ill are children.

One child has died from complications of these who are ill are children.

Manitoba Crop Report

Wheat Cutting To Begin At The End Of August

Winnipeg.—The western portion of the province of Manitoba has a record crop generally, but the eastern part, with some satisfactory exceptions, has a much poorer return, according to a report issued by the provincial department of agriculture.

Practically no damage had been done by frost, the report states, and hail damage has been light.

Wheat cutting in Manitoba is expected to begin about the end of August. The durum variety of wheat predominates in Southern Manitoba this year, little Marquise wheat being sown.

The Morden-Morris-Emerson area there is an odd field of wheat out and despite the rust which has attacked the wheat there will be a fairly good yield.

Toronto Union Station Opened

Toronto.—Toronto's "new" union station, which for eight years has laid idle, completed but unused because of difficulties surrounding the construction, a viaduct in connection with it, was opened to the general public, and the old station, which has served as a terminal for more than 50 years, was thrown into the discard. From now on all trains will be operated from the new station.

Can Supply Harvesters

Ottawa.—Officials in touch with the employment situation in Eastern Canada, do not anticipate that any difficulty will be encountered in re-creating the army of harvesters which is to be transported to Western Canada to help the crops. Approximately \$5,000,000 will be needed from Eastern Canada for harvesting and this number should be readily available.

W. N. U. 1264

Agricultural Statistics

Number Of Occupied Farms In West Less Than In 1921
Ottawa.—The Dominion Bureau of Statistics has issued a preliminary report on the agricultural statistics of the provinces of Manitoba, Saskatchewan and Alberta, as shown by the quinquennial census taken in June, 1926.

The report showed a decrease in the number of occupied farms in all three provinces over the year 1921, when the last census was taken. The 1926 census showed 52,351 occupied farms in Manitoba as compared with 52,322 in 1921; 11,787 occupied farms in Saskatchewan as compared with 118,451, and 7,120 in Alberta as compared with 82,954.

Total acreages occupied as farms with 1921 comparisons in brackets were shown as follows:

Manitoba, 14,113,237 (14,615,844); Saskatchewan, 45,544,865 (44,022,907); Alberta, 28,572,931 (29,292,053).

Improved farm land was shown as follows: Manitoba, 8,346,921 (8,652,853); Saskatchewan, 27,714,045 (25,037,401); Alberta, 13,204,156 (11,768,042).

Crop Report Encouraging

Under Favorable Conditions Yield May Exceed First Estimates

Ottawa.—The crop report of the Dominion Bureau of Statistics, based on condition of all field crops throughout Canada is excellent. The condition of spring wheat is numerically expressed as 15.6 per cent. of the total area sown, representing an anticipated yield of 15.6 bushels per acre and a total forecast for all wheat of 357,367,000 bushels from 22,335,777 acres.

Last year, at the corresponding date, the condition of spring wheat was reported at 92 per cent., representing an average yield per acre of 13.6 bushels and the total forecast for all wheat was 315,509,000 bushels. The final estimate of yield for 1926 turned out to be 469,811,000 bushels.

Assuming that conditions this year remain favorable until the end of July, there appears to be grounds for expectation that the wheat crop may turn out to be more abundant than the forecast of 357,367,000 bushels now indicated by the condition at the end of July, the report says.

Air Derby Fliers Killed

Bodily Burned When Plane Burst Into Flames After Crash

San Diego, Cal.—Eleven-year-old and R. W. Wagner, U.S. Navy, who left here in an airplane they had entered in the hole flight to Honolulu, were killed when the aeroplane crashed into Point Loma, near here.

The plane was destroyed in less than 15 minutes after they had left for Oakland airport, where they intended to take off in the flight to Honolulu. The plane burst into flames after it struck Point Loma.

Covey's body was found in the cockpit of the plane and was charred beyond recognition. Identification was made from a wallet that was found in a pocket of his coat. Wagner's body was later recovered from the wreckage, and also was badly burned. Wagner is believed to have endeavored to jump clear of the plane as it fell, but was caught in the flames. The aviators had drawn number 13 in the race.

Police Watching Garibaldi

Liverpool.—Col. Riccio Garibaldi arrived from Havana, Cuba, on the liner Orya. He was given a registered address by the police and asked to remain there but is allowed full liberty. Col. Garibaldi was arrested for complicity in the Catalonian conspiracy in November, 1926. The formal charge was that of possessing arms illegally and he with Col. Macia, was sentenced to two months' imprisonment and fined \$5.

Penalty For Starting Grass Fire

Sacramento, Cal.—State forestry officials have been notified of a novel sentence to a careless smoker, who was responsible for starting a grass fire in Tehama County. It was Justice of the Peace E. F. Lenore, and under a decree Fred Robinson, 25, a laborer, will be prohibited from smoking for one year. Robinson confessed to take the pledge and saved himself a fine.

B.C. Peach Crop Damaged

Regina.—Warning of an 80 per cent. crop failure of Washington and British Columbia peaches was issued by the manager of a wholesale fruit house, who attributed the condition to frost. It was estimated that from 200 to 300 carloads will be all that the Yakima and Okanagan valleys will produce this year, as against as many thousands last year.

Attempted To Sell Dye Trust Secrets

Formulas and Contract Found In Possession Of Three Employees In Germany

Hoechst, Germany.—Three employees of the German Dye Trust are alleged by the police to have been caught in an attempt to sell the manufacturing secrets of certain products to English interests. The police say they found the formulas hidden in the men's socks. They also claim to have found a contract fixing the purchase price of the secrets at 900,000 marks (about \$207,000). The alleged contract also provided air passage to England, naturalization there, and steady employment, with a share of the profits.

The law does not cover mere attempts of such nature, and the three men were released.

London To London

Airmen Selected

Captain Tufty and Lieut. Medcalf Chosen To Make Flight

London, Ont.—Captain T. H. Tufty, for the past several years superintendent of the Ontario government services, and Lieut. Medcalf, of the same service, have been chosen pilots for the London, England, non-stop flight.

They signed their contracts with Charles Burns, donor of the \$25,000 prize for the flight, and left at once for Liverpool to take charge of the Stinson Monoplane, scheduled to be completed and fully equipped with all navigation instruments in time for delivery in London, August 15.

The plane here to be ready for a take-off, if weather is favorable, within a week or so.

TWO RADICALS AGAIN GRANTED BRIEF REPRIEVE

State Prison, Charlton, Mass.—Nicola Sacco and Bartolomeo Vanzetti again have been given a new lease on life.

The radicals, condemned to execute their crime of murder committed seven years ago, in the electric chair, have been granted a reprieve to and including August 22.

This announcement was made by Prison Warden William Hendry, following receipt of formal papers which empowered him to take this action.

Many times before these two radicals, whose case has aroused international interest as one of the most remarkable murder cases in the history of jurisprudence, have been within a few hours of death. Their out of the night would come the word that the forces working day and night in their interests again had been successful in stalling the upraised hand of the law poised to claim revenge for two lives snuffed out away back in April, 1920. Such was the case again. History was just repeating itself.

And this dramatic climax to the most amazing legal battles ever fought came after defense counsel had almost given up hope—when they were about ready to admit that "no human power" could again stave off the fatal moment.

The votes which his been heard around the world, raised in loud and continual protest against the execution of Sacco and Vanzetti, bright glad news also to Celestino Madeiro, sentenced to die with the radicals. This man, also convicted of murder, but his crime having no connection with that of the radicals, is included in the blanket reprieve. His name is almost unknown to the millions who raised their voices for Sacco and Vanzetti, yet he too benefit.

TRADE OUTLOOK IN CANADA IS VERY FAVORABLE

Calgary.—That the general industrial transportation and agricultural outlook from reports reaching him from all parts of Canada was on the whole very excellent and would further improve as the market for Canadian products was widened, was the statement made here by E. W. Beatty, I.C.C. chairman and president of the Canadian Pacific Railway.

"An important factor in the latter condition will be a steadily increasing population," he said. "The transportation companies of course, only reflect the general conditions of the country, and compared with last year, their gross earnings are higher but increased costs beyond their control has resulted in lower net earnings."

The Canadian transportation companies are not yet being paid compensation for the important public services they are, in fact, performing. As to agricultural conditions, a great deal will depend on the weather that will prevail during the next ten days or two weeks. If the conditions are favorable, another substantial contribution to the country's progress will be made."

What are your impressions of the benefits Canada will derive from the contract visit of their Royal Highnesses and Prime Minister Baldwin?

"The benefits which Canada will derive cannot help but be very great and far reaching," he said. "Canadians are always glad to see their Royal Highnesses and to listen to the Prince of Wales is almost as one of themselves. The unquestioned loyalty of our people needs no confirmation but we are particularly fortunate that on the occasion of the celebration of the centennial of Confederation representatives of the reigning house of Great Britain and the Prime Minister of that country have to participate in it."

The impressive character of the jubilee celebrations have had a pronounced effect on our people, particularly on the younger generation, and the realization of what this country has done cannot but improve the morale of the people and increase the strength of our growing national sentiment."

Resents Betting Tax

National Sporting League May Have Candidate To Oppose Churchill

London.—Whiston Churchill, chancellor of the exchequer, probably will be opposed by an independent Conservative candidate in the Epping division of Essex in the next general election. The National Sporting League, as a protest against the imposition of the tax on betting, threatened to bring out a candidate against Mr. Churchill, who as chancellor of the exchequer, is largely responsible for the passing of the legislation imposing the tax.

Premier Oliver Still Ill

Victoria.—The condition of Premier Oliver, who underwent an operation some time ago, continues to improve. Since he met his supporters in the legislature some weeks ago and announced his readiness to retire, he has not visited his office in the parliament buildings. Occasionally he is able to take a short automobile drive, but is confined to his bed a great deal.

Climber and Guide Missing

Jasper Park.—F. H. Stark, experienced Alpine climber and photographer of Vancouver, and Fred Roulet, Swiss guide of Jasper, are believed to have lost their lives in the Tonnigan Valley when attempting the ascent of Redoubt Peak, a section of the Rampart Range in that part of the country.

TWO PREMIERS MEET

Right Hon. Stanley Baldwin, Premier of Great Britain, and Rt. Hon. Wm. L. Mackenzie King, Premier of Canada.

Settlers Under Group Plan Are Prospering

Progress Made During Summer Says Canada Colonization Official

Winnipeg.—On his return from an inspection tour of the settlements made by the Canada Colonization Association in the West, R. C. Duncan, assistant manager brings an account of good conditions. Prospects in Alberta, Mr. Duncan says, are particularly bright. On the George Lane farm at Nakama, colonization under the auspices of the association was by 36 families, the settlers expect to pay off \$50,000 of their indebtedness this year, and have taken out extra full insurance to protect their crop, which is the best in the history of that district.

Settlements made by the association in the Lethbridge district are so successful that it has been decided to increase them by 25 families this fall. One of the settlers has placed 120 acres in sugar beets, 25 acres in potatoes and 100 acres in wheat and other small grains, from which his returns this fall should be close to \$15,000. There are eight families now working for him.

The 11 families placed on the Indian farm near Kelowna, in British Columbia, are doing well. Their cotton crop has been harvested. A representative of the Canada Colonization Association will be placed in the Okanagan Valley to look further into opportunity for group settlement there.

Mr. Duncan is leaving this week for the coast to investigate settlement possibilities in the tobacco fields of Essex county, where a large number of families have been temporarily placed.

Airplane Race To Honolulu Postponed

Committee Finds Entries Not Properly Equipped Or Qualified

San Francisco, Cal.—Postponement of the \$25,000 race flight from San Francisco Bay to Honolulu because the entries who have thus far presented themselves "are not now properly equipped, qualified," was ordered today by the flight committee and the Department of Commerce, subject to the approval of the Honolulu chapter of the National Aeronautic Association.

The committee announced its decision after a meeting which lasted well into the early hours of the morning. The starting committee recommended the postponement of the start of the flight for a period not exceeding two weeks. It was further recommended that no additional entries be accepted for the postponed date.

Frustrate Conspiracy To Liberate Prisoners

Milwaukee Jail Found Two Bars

Milwaukee, Wis.—What county officials said was a conspiracy to liberate 62 prisoners in the county jail was frustrated when a jailer discovered that two bars of a first floor cell had been sawed nearly through and a third bar far enough so that work could have been completed within a few minutes.

Prisoners, questioned by Sheriff Charles Schallert, said a woman had supplied the saws, and that she was to have smuggled firearms so that prisoners might shoot their way out if necessary.

SOFT COAL DUST TO SOLVE OUR FUEL PROBLEMS

Montreal.—Predicting fuel independence for Canada inside of seven years through the manufacture of pulverized fuel and oil by products from soft coal dust, R. A. Bradstreet, English fuel expert, is in Montreal to lay plans for the development of a new industry.

"We can use soft coal or Canadian lignite, and if there is in Canada peat, with volatiles rising to above 20 per cent. we can use that, too. Our process removes from these materials gas and oil. Tests with Canadian lignite show that we get a fuel residue, pulverized fuel which is absolutely smokeless, does not throw sparks, is of high heating value and can be marketed at a figure that would appear ridiculous today."

By-products of the process, said Mr. Bradstreet, included fuel oils, gasoline, lubricating oil, wood preservatives, Diesel oils, synthetic resins, paraffin wax, tar for road-making, and the gas for domestic and industrial use.

FORT CHURCHILL TO BE TERMINUS OF THE H.B. ROAD

Nelson, Man.—Fort Churchill, the nucleus point of the Hudson's Bay company, which in the 19th century was a naval base and called Fort Prince of Wales, the picturesque ruins of which still stand, will be a terminus of the Hudson's Bay Railway.

Fort Churchill, situated at the mouth of the Churchill River, a great natural harbor, 477 miles from the Pas, Man., will be recommended to the Federal Government as the Hudson's Bay Railway port by Frederick Palmer, distinguished British engineer, who has just concluded a survey of both Fort Churchill and Port Nelson harbors.

Frederick Palmer, who will submit a preliminary report to the Federal Government during the present month, announced his decision to recommend Fort Churchill.

"It is a natural harbor in which practically unlimited shipping accommodations can be provided in the shortest time and at a minimum of cost," declared Mr. Palmer. "It is almost incomparably superior to any harbor in safety, cost of construction and economy of time."

Following Mr. Palmer's announcement, Hon. Charles A. Dunning, Minister of Railways and Canals, stated that the government would act immediately on the British engineer's recommendation.

"Nature has given us a wonderful harbor at Churchill and it is the policy of the government to develop and make use of the whole Hudson's Bay route as quickly as possible," said Mr. Dunning.

The Federal Department of Railways sent proposals to the British engineer to push forward work at Churchill from the sea, and the Canadian National Railways, acting for the department, will complete construction of the remaining railroad link as speedily as possible, Mr. Dunning announced.

May Build More Cruisers

U.S. Plans To Construct Ten In Next Five Years

Washington.—While no official statement has been made, it is understood here that in proposing a cruiser tonnage of from 250,000 to 300,000 at Geneva the American Government figured upon a maximum of eighteen 10,000-ton cruisers for the next five years.

Eight such craft now have been contracted for and the other ten undoubtedly will be authorized by committee in the near future. The speed with which they are to be built probably was one of the subjects discussed by President Coolidge and Secretary Vilbur at Rapid City.

Naval opinion here now is that two of these craft should be laid down each year spreading their construction over a five-year period.

Eighteen 10,000-ton cruisers, would total 180,000 tons which, added to the 75,000 tons in the ten light cruisers of the Monitor type, now in construction, would give the United States a total of 255,000 tons.

First Shipment Of Wheat

Grain From Manitoba Farm Averaged 13 Bushels To The Acre

Winnipeg.—The first carload of wheat for this season, of the Garnet variety, was shipped from the farm of E. Nickel, situated one mile west and south of Rosefield, Man., over the Canadian Pacific Railway. The shipment was consigned to the Lake of the Woods Milling Co.

The grain, which was grown on low land flooded early this spring, averaged 13 bushels per acre, but the higher land in the district will average 20 bushels to the acre.

Floods Damage India Crops

London.—Disasters reared in Bombay from the district of Gujarat, Bombay presidency, British India, and forwarded by Reuters, say floods are expected to have the disastrous effect of destroying 50 per cent. of the cotton crop, 90 per cent. of the tobacco and a large proportion of the foodcrops of Broach. The cotton loss in the Gujerat and Kachhar districts is estimated at 150,000 tons.

Look For Chinese Trouble Maker

Vancouver.—Police attempted to intercept an unnamed Chinese wanted as a result of transactions made of documents seized at the Chinese Nationalist headquarters, now following the shooting of three Chinese. This information was that the man was to sail for China but search on the liner on which he was to have sailed failed to reveal him. They are now making a search of the city.

The Story of Confederation

Instalment No. 4 of Diamond
Jubilee address to Coleman school
children.

When in 1870 the Province of
Manitoba was created, the remain-
der of the vast prairie lands that
had been acquired by the Dominion
from the Hudson Bay Co. was formed
into the North West Territory and
in 1882 the provincial districts of
Assiniboia, Saskatchewan, Al-
berta, Athabaska were established.
In 1897 a certain measure of re-
sponsible self-government was granted
to these districts, and in 1905 the
Dominion Government created out
of those four districts the provin-
ces of Alberta and Saskatchewan.
These two new provinces officially
took their places with the seven
older provinces on Sept. 1, 1905,
thus making a continuous Dominion
from the Atlantic to the Pacific.

In 1912 a still further extension
of boundaries for Manitoba, Ont-
ario and Quebec was agreed on, in
order that they might conform
more closely to the territories of
Alberta and Saskatchewan. Cana-
dian territory north of the 60th
parallel has for administrative
purposes been formed into terri-
tories of Yukon, Mackenzie, Keewatin
and Franklin, the latter district ex-
tending into and including the
Arctic Ocean. This is the Canada
of the present day, extending from
ocean to ocean, even into the waters
of the polar sea. Little wonder,
then, that we are so fond of, so
proud of, so jealous of this Canada
of ours.

This, then, is the story in brief
of the remarkable conception and
birth of our great Dominion of Can-
ada. It has only been able to touch,
in passing, the very outlines of this
immense subject. It is a story to
thrill the mind of the most imagin-
ative and to fill the heart of every
true citizen of Canada, dwarfing all
other movements of a like nature,
overcoming difficulties thought to
be impossible, "The Fathers of
Confederation" by their patience,
courage, constancy, self sacrifice
and patriotism, achieved results of

which we do not even now see the
limit.

Beyond the expectations of even
the greatest of the statesmen of
1867 Canada has expanded and
prospered until, in the year of grace
1927 her commerce, her shipping,
her manufactures, her discoveries,
and the fame of the valor of her
sons, has penetrated to the ends of
the earth. Canada is a name to
set the blood tingling in the veins
of the most distant people, and the
beauty and greatness of the Domini-
on has been acknowledged, even in
the ancient haunts of the old world.

From every quarter of the globe
men and women flock to Canada to
view the grandeur of the Rocky
Mountains and the beautiful lakes
of Banff, Alberta. Every winter
the sports of Canada attract the at-
tention and presence of thousands
of tourists, and in the summer time
the hunters and fishermen find

in Canada their greatest joy. Yes!
we have a country second to none
in the world, and not all the words
in the English language can tell the
full story of Canada's beauty and
magnificence.

At the time of Confederation,
the land area of Canada was some-
thing like 385,324 square miles;
since that time the incoming of
other provinces and the results of
explorations, has increased the area
of Canada so extensively that to-
day the Dominion covers more than
3,500,000 square miles.

The store that advertises has a
big advantage over the one that
does not, for it is the store that does
not advertise that helps to pay the
cost.

The Low-Swung Body with no loss of headroom or road clearance

THE dream of every automobile manufac-
turer—to build a body low swung for
beauty and for roadability, without loss of
head-room or road-clearance—has become
reality in McLaughlin-Buick for 1928.

McLaughlin-Buick engineers achieved this
lower effect, not by the makeshift of smaller
wheels with their increased tire wear, but by
a complete re-designing of bodies, and by an
entirely new and exclusive principle, the
double-drop frame. The tallest McLaughlin-
Buick now stands but 70 inches high, yet
McLaughlin bodies are roomier than ever
before.

See the low-swung body as McLaughlin-Buick
builds it, and you will see at once why
McLaughlin-Buick is the industry's accepted
leader in beauty, luxury, performance—and
especially in value.

CHAPTER VI.—Continued.

"You'll come over early, get dressed, and I'll make you up a little; just a little rouge on your cheeks, and your eyes darkened a little. You will go out in the car with my driver, and at the proper time he will bring you in, and I will introduce you to my friends with two or three and then come to me and tell me you are tired. There will be a great fuss then over you, but you will insist on going. Then you will drive away with you and then bring you back to the hotel. Manda will be in the secret, of course, and she will see that the doors are shut. No one will see you, and you'll go to her room, slip off the clothes, put on your own wash, oil the rouge and powder, and come down and help to serve. Won't it be fun?"

Helmi's days following this were passed in a golden glow of expectation. The whole air around her, the chaotic unimpeachable air of Miss Abbie's kitchen, trembled and glittered with visions. Her little world was suddenly changed by the touch of clinging silks and the gleam of stary eyes—and those her own! Her young soul was intoxicated with the new air of beauty and adventure. At the next Ladies' Aid Meeting Miss Abbie complained of Helmi's absent-mindedness. "I declare," she said, "that Helmi girl of mine is bewitched. She gave the autumn bread tickets this morning, let the tea turn, and I heard her talking to her lover. I am so sure I've been taken to withdraw," she said, and by the air of her you would think she was a queen upon her throne. I asked her if she was putting up a play or something, but she said not. But she is in great glee over something. I hope she's not going to be taken down, this is a grand girl, only for this, and this has all come on so suddenly."

The day of the party came, Helmi

PAINS ALL OVER BODY

Two More Cases of Feminine Illness Relieved by Lydia E. Pinkham's Vegetable Compound

Barrington, N. S.—"I had terrible feelings, headaches, back and side aches and pains all over my body. I would have to go to bed every night and nothing would do me any good. I was so weak and my father did my work for me as I have two children and we have quite a big place. I read in the paper about Lydia E. Pinkham's Vegetable Compound, and then I got a bottle, and then I felt better. I am feeling fine now and do all my work and am able to go out around here. I tell my friends it is Lydia E. Pinkham's Vegetable Compound that makes me feel so well."—Mrs. Victoria Richardson, Barrington, Nova Scotia.

Dull Pains in Back

St. Thomas, Ont.—"I took four bottles of Lydia E. Pinkham's Vegetable Compound and found great relief from the dull, heavy pains in the small of my back, and the weakness from which I suffered for five years after my boy was born. After taking the Vegetable Compound and feeling Lydia E. Pinkham's Sensitive Wash I am feeling better than I have for many years. I am feeling fine now and do all my work and am able to go out around here. I tell my friends to take it."—Mrs. F. Johnson, 40 Moore Street, St. Thomas, Ont.

cow. She was going to be such a lovely lady no one could keep her out any more than they could keep out Mrs. St. John, and besides, she would see to it that no girl, girl, everyone would love her.

She would bring out: Plain girls—a ship load of them—and make houses for them on the boat, and show them how to make dresses and do their hair, make stylish caps and say stylish English words. She would drive her own car going to see her friends, and she would teach them to do the same. She would have a fine house, and have nice supper and give them a lot of the Blue and Gold Book.

Lost in the pleasant dream, Helmi did not notice that a cloud had come over the sun and a chill had fallen. A drab little wind, with an ugly jagged edge on it, came whistling across the road blowing dust in her eyes. She looked up. Aunt's flower garden had faded, and with it the vision expired.

A sudden chill fell on Helmi's heart. Like most of her countrymen, she was impressionable, and she shivered down with a sense of dread. Shivering she went into the house.

Seeing no one around, Helmi ran upstairs. Her friend was sick, may be. That was the trouble which was coming.

In a darkened room, smelling heavily of some strange odor, Helmi found her lovely lady lying with face white and hands of her eyes burning. Helmi's heart had been Helmi's heart, but now it was Helmi's heart. Helmi's heart was Helmi's heart.

"Oh, Mrs. St. John, what is it?" Helmi's heart was Helmi's heart. Helmi's heart was Helmi's heart. Helmi's heart was Helmi's heart.

"I will be all right, Helmi," her friend's ready voice reassured her. "You can help me. Will you go down town for me?"

"To go to the—anywhere," whispered Helmi, frightened by her friend's ghastly pallor; "I get queer—he will get medicine."

Mrs. St. John's hand flew up in an imperative gesture. "Don't do any more are told, Helmi! I do not want the doctor."

The angry tone brought tears to Helmi's eyes. Mrs. St. John's voice softened. "Don't mind me, Helmi, I'm so sick. The doctor wouldn't understand, and he would be cross."

Helmi grew more nervous. "Listen, dear, you can try to tell me, I can trust you. Never tell, Helmi, I have a bad heart, and only one medicine can make me well." She panted a minute, and Helmi could feel her breathing eyes on her face in pained anxiety.

"Can I get?" asked Helmi. "Yes, dear, you can. Go down town—here's the address, ask for Sam. He's a doctor, a Chinese doctor, that's why we mustn't tell Dr. St. John. He would be angry. Doctors often hate each other. Dr. Sam will give you a little box for me. Just say you sent you. Don't say my name. Helmi. And never tell—Oh, Helmi, I will love you if you'll never tell. I must have taken my box—oh, yes, I think he knows—the doctor—oh, yes, always sends it to the blue drayman, but today the doctor was here. I am so afraid, Helmi. Did you take my box, Helmi?"

Helmi's eyes went wide with terror. "No, no, I'm crazy with pain. Go, Helmi, and be quick and never tell. Helmi promise me: if you tell I will die."

(To Be Continued.)

Ivory Making Eskimos Rich

Long Buried Tusks Found On Islands in Behring Sea

An ivory harvest arrived at Tacoma recently on the schooner Dooer, which represented an unintentional bequest from long dead Eskimos to the present generation. Furges natives of the islands in Behring Sea took walrus, ate the blubber and threw the floating white tusks on the dump or kitchen midden, back of their igloos.

The piles accumulated during the centuries until the white men came with their trading schooners and eagerly bought the tusks of freshly-killed walrus. The Eskimos of today, remembering the wasteful habits of their ancestors, promptly began to sink mines for the ancient camps and villages. Each year for four years on St. Lawrence Island alone they have dug out thousands of dollars worth of fossil ivory.

The up-to-date and semi-civilized Eskimos do not waste time going far to sea spearing their walrus, they simply mine the buried treasure, send it to the white men's goods, and the profits.

He who lends money to a friend is apt to lose faith, a friend and money, too.

During the international fair at Budapest there were 36,000 visitors from other countries.

Diplomats Think Of War

At the Same Time the Public Is Assured, That War Is Unthinkable

While statements on both sides of the Atlantic have been assuring the world that war between Britain and the United States is "unthinkable," the naval experts at Geneva have been acting as if that was what they were thinking of most of all. British thought of a war and the greater part of the arguments on which the experts lay on much solid ground. If war is unthinkable, it should make no difference to the British if we use extra of cruiser tonnage to build larger rather than smaller ships. If war is unthinkable, it is unthinkable that those cruisers could even threaten Great Britain. If war is unthinkable, it can make no great difference to Great Britain if the smaller ships carry much less gun power than the larger ones. If war is unthinkable, it can make no great difference to Great Britain if the smaller ships carry much less gun power than the larger ones.

It is not that the British are so stupid as to think that war is unthinkable, but that they are so wise as to think that war is unthinkable. It is not that the British are so stupid as to think that war is unthinkable, but that they are so wise as to think that war is unthinkable.

Was Idol Of Navy

Earl Beatty Has Retired At Zenith Of Fame

Earl Beatty, naval hero of the World War, and to all Britishers the symbol of their navy, has retired from active service.

Relinquishing his duties at the admiralty at the early age of 55, Lord Beatty can look back upon a career in which he has brilliantly realized every ambition that a naval officer could entertain. During the period of his naval service he has won honor and promotion for acts of personal gallantry ashore as well as afloat.

Perhaps no man since Nelson has looked so much in the spotlight of the public's hero worship, or so much in favor and popularity among his men. It can well be said that no man has climbed to the top of the British navy with so little effort, born only of ability and courage, as has Beatty.

He has been in command in more than one of the most tremendous sea-fights in history, winning thereby the unstinted gratitude of the public and the enthusiastic devotion of his men. He received in person the surrender of the most dangerous and powerful enemy that ever attacked England by sea.

His most outstanding feat in naval administration was the redistribution of the British naval strength, the building up of the British Dominion fleet, and the acquisition of a peace-time training to meet the needs of new and modern naval warfare.

In November of last year, Beatty had reached the seven years allowed by law that anyone may sit on the Admiralty Board. He expressed the desire to retire at that time, but was dissuaded by First Lord of the Admiralty W. C. Bridgeman who insisted that Beatty remain in the navy as a valuable success could be found.

Beatty's successor, who will take office as Beatty retires, is Admiral of the Fleet Sir Charles Madden whose appointment has met with a qualified approval among naval men.

Little Helps For This Week

By thy words thou shalt be justified, and by thy words thou shalt be condemned.—Matt. xii. 37.

Words are mighty, words are living; Serpents with their venomous

Or bright angels crowding round us With heaven's light upon their wings.

Every word has its own spirit. True or false, that ever dies.

Every word man's lips have uttered Echoes in God's ear.

—Adelaide Anne Procter

The evil word and oh, remember this—a step, a long step, beyond the evil thought; and it is a step toward the precipice's edge.

—Frederick W. Farrar

Remember that every word you utter whigs its way to the throne of God and is to affect the condition of your soul forever. —Told.

Workman Showered With Golden Coins

Pick Pieces Burial Vase in Old Roman Tomb

Swinging his pick on the eastern outskirts of Rome, a workman digging the foundation for a garage recently was showered with golden coins as he drew back his implement.

At a blow he had pierced not only the shell of an imperial tomb of the second century, but also the burial vault of a Roman prince, which held the golden shower about his head.

The coins found in this tomb—250 of them—date from the reigns of the Roman Emperors Trajan, Hadrian, Antoninus and Marcus Aurelius.

The find is now in the hands of the police, and cannot be scientifically catalogued until the treasure trove formalities are complete.

Minard's Liniment For Itchy Scalp

Ontario Main Source Of Cobalt

For the past twenty years the Cobalt has been the main source of the world's supply of cobalt. In the period 1907-1925, both years included, the total output of cobalt was 21,843,764 pounds.

In the course of a month a miner will devour 6,000 times its own weight in food. It will take an average man three months to bring his estate a quantity of food equal to his own weight.

A Remedy For Eczema.—To have the eczema to endure torture. The cure is a delicate ointment and few cures to date with it, considering the work of the cure. The ointment is called Eczema. It offers a simple remedy. A few drops upon a piece of lint or medicament, and it is placed in the ear will do much in relieving pain.

More than 2,300,000 people in Great Britain have savings accounts.

Why Gum-Dipped Mileage Costs Less "Per Mile"

The demand for car owners for Firestone Gum-Dipped Tires has given Firestone Dealers a large increase in volume that enables them to sell these tires to you at the lowest prices in the history of the industry.

The Firestone Balloon Tread, scientifically designed three years ago, and unchanged today has the wear-resisting qualities that give thousands of extra miles.

This tread must be placed on a carcass that has the qualifications to withstand terrific flexing. The Firestone carcass is made of cords dipped in rubber solution which not only saturates and unifies every fibre of every cord, but also saturates the carcass, eliminating the possibility of separation under the extreme flexing of low-pressure tires.

The Firestone Dealer in your locality is ready to explain the Gum-Dipping process, the scientifically designed tread, and other advantages that only Firestone Gum-Dipped Tires can give. See him today.

Shipment Of Stone Marten

A shipment of stone marten was made recently to the United States Experimental Fur Farm in New York State. The animals, having been caught in the Lake Windermere district of British Columbia.

NO BETTER MEDICINE FOR LITTLE ONES

Is What Thousands Of Mothers Say Of Baby's Own Tablets

A medicine for the baby or growing child—one that the mother can feel assured is absolutely safe as well as efficient—is found in Baby's Own Tablets. The Tablets are praised by thousands of mothers throughout the country. These mothers have found by actual experience that there is no other medicine for little ones to equal them. Once a mother has used them for her children she will use nothing else. Concerning Baby's Own Tablets, H. H. Kellough, N.S., writes: "I have a child of five years, just six months old. I have used Baby's Own Tablets for them for the past 20 years, and can truthfully say that I know of no better medicine for little ones. I always keep a box of the Tablets in the house and would advise all other mothers to do so."

Baby's Own Tablets are sold by all druggists and dealers, or may be ordered upon receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont.

After a period of storm and stress we should take care carefully for the rainbow. It is there.

Reduced by Asthma. The constant strain of asthma brings the patient to a dreadful state of hopeless exhaustion. Early use should be made of the medicine of the famous Dr. D. Kellough's Asthma Remedy, which more than any other remedy quickly and surely on the air passages and brings blessed help and comfort. No home where asthma is present in the least degree should be without this great remedy.

There's a lot in imagination. Wherever you go on vacation, you'll find natives who would like to go where you come from.

COLEMAN BAKERY

Mr. and Mrs. James Ford and family left on Friday evening by auto for two weeks vacation, their destination being Portland, Oregon.

Mr. and Mrs. W. L. Rippon left on Tuesday for an auto trip over the Banff-Windermere trail, and will be absent for about a week.

Mrs. J. A. Price and daughter Gladys returned on Friday morning from several weeks holidays at Vancouver, Victoria and Seattle.

Claude Bolton, of Lethbridge, visited his sister, Mrs. Sydney Short, last Friday, leaving on Saturday for Waterton Lakes.

Mr. and Mrs. A. F. Short and family are spending their holidays at Vancouver, having left last week by auto.

Andrew Gardner of Lethbridge visited with Mr. and Mrs. Matthew Wilson this week on his way the coast.

Mr. Johnson returned by train from Vancouver, and expects to leave again shortly to bring his family home by car.

T. Johnson returned on Wednesday from Calgary and Drumheller, having spent almost two weeks at the latter place visiting his two sons.

Principal Hoyle left on Friday evening for Edmonton and expects to return this week with his family. They will take up residence on Sixth street.

Mr. and Mrs. Maurice W. Cooke left by train on Saturday evening for Vancouver and Victoria, where they will spend two weeks vacation.

Mrs. McCallum and daughter Belle of New Dayton, Alta., are the guests of Mrs. L. Lindoe. Mr. M. McCallum and R. Seitel, who have been visiting with Mrs. Lindoe, returned to New Dayton on Sunday.

Captain W. A. Beebe of Blairmore was among the visitors at the last dance in aid of the Coleman swimming pool, and was enjoying himself by taking part in a few of the dances, and renewing acquaintances.

There was an old woman who lived in a shoe,

She had so many children she didn't know what to do:

Buying shoes for the lot was once one of her woes—

Now, she smiles and to ANTRO BUS' SHOE STORE she goes.

Mr. and Mrs. Jas. Allan and children returned on Sunday from a very enjoyable two weeks holiday spent at Nelson, B. C. Mr. Allan states that there has been quite a dry period there, quite different to the weather experienced in this district.

A Star Coupe driven by a young man named Keith Coulton, of the staff of the East Kootenay Power Co., Crow's Nest Lake, skidded into the ditch a couple miles east of Coleman last Friday night. Though the car was rather badly damaged, the occupants were not injured.

A party of visitors to Waterton Lake on Sunday were Mayor Burns, Mrs. Burns and daughter, Mr. and Mrs. J. Nash and daughters, W. J. Johnston, W. Lonsbury and A. Lonsbury. Mrs. Burns and Mrs. Nash with their daughters are remaining at Waterton for a ten days visit, the gentlemen of the party returning on Sunday afternoon.
